**Parent Consent for Release of Student Photographs, Video Images,
Recordings and Creative Works**

While the New Paradigm College Prep Elementary Academy maintains an “opt out” policy for the publication of “directory” information we believe it is very important that parents give their express permission to the school district for the publication of photographic or video depictions of their children on the district’s web site or in printed district materials.

There are several occasions throughout the school year when the School or individual classroom teachers will have cause to photograph or videotape classroom or school-related activities. These images (including student photographs, videos, artwork, writing and other creative works) may be published or distributed through printed or electronic media, including the School’s web site. Images may also be released to local media to highlight important or interesting stories associated with the academy. Some common uses of student images include but are not limited to: **promotion of clubs, activities or classroom projects; recognition of achievement; promotion of school programs; or celebration of academic or aesthetic qualities. The School will not benefit financially from the use of these images.**

You are receiving this letter to request permission for New Paradigm College Prep Academy to publish images of your child on the district web site or in printed materials. Please indicate your preference below:
